WELCOME TO THE JOINT REGIONAL SEMINAR 2018

Joint
Regional
Seminar 2018

OBJECTIVE

The Joint Regional Seminar (JRS) is an annual event co-organized by the Institute & Faculty of Actuaries, Actuaries Institute Australia and Society of Actuaries with the support of the local actuarial societies in the region. It is designed to assist actuaries and other professionals in meeting their CPD requirements. *Society of Actuaries of Thailand* is pleased to be once again hosting the JRS, which will take place on **6 Aug 2018 in Bangkok**.

THE SEMINAR

Increasing digitisation in the insurance industry is becoming more certain as a trend for where we are heading towards. In reality, we have already seen its impact being felt in areas such as business strategy, marketing philosophy and product offerings. It has driven changes to companies' organisational structure and work culture in order to further embrace the challenges and opportunities arising in the new digital world. These changes happening as well as associated challenges are not just impacting corporations, but are very relevant to our Actuarial profession. Like the technology itself, insurers' understanding of the impact of digitisation is evolving rapidly. Not long ago we were asking the question "Is this important?". Now the question has become "What do we do about it?". Hence the theme of this year's JRS is **"Back to the Future – Challenges and Opportunities in an Increasingly Digital World"**.

Some key topics in the Bangkok JRS are:

- How Digital is Changing Insurance Asset Management - Now and In the Future (by Aberdeen Standard Investments)
- Implementing Artificial Intelligence with Big Data for Life and Health Insurers - A Case Study on Digital Intervention Solution (by EY)
- Role of Technology in Driving Transformation of the Insurance Industry – Catalyst, Driver, Incubator? (by Willis Towers Watson)
- Application of Innovative GPU/CPU Parallel Computing Technologies in Actuarial Modeling (by Milliman)
- Put Digital Technology to Work for Consumer Empowerment (by SCOR)

CPD

The Joint Regional Seminar qualifies for (Actuaries Institute Australia / IFoA / SOA / SOAT) Continuing Professional Development (CPD). Actuarial members may find it a useful contribution to their personal professional development. A maximum of 6.1 CPD hours* can be claimed from the Bangkok JRS. The amount of hours recorded is left to the discretion of the individual.

* 1 CPD hour = 60 minutes

Speaker Profiles

Joint
Regional
Seminar 2018

Dr. Bruce Porteous
Investment Director
Aberdeen Standard Investments
(ASI)

Bruce Porteous is an Investment Director at Aberdeen Standard Investments (ASI), the investment business of Standard Life Aberdeen plc (SLA), where he is leading and developing ASI's global insurance solutions proposition and business, increasingly dependent on digital ideas, data and technological innovation. Over his career with Standard Life Aberdeen, he has gained experience in marketing, corporate finance and international business development, especially his early involvement in the development of Standard Life Aberdeen's successful Indian businesses HDFC Life and HDFC AMC.

He gained banking experience in a retail mortgage bank start-up at Standard Life Aberdeen and has broad risk management and regulatory development experience, especially Basel II and Solvency II, Chairing the Association of British Insurer's Solvency II Committee. At Tillinghast, Bruce also gained experience of global insurance M & A, corporate restructuring and market entry. Bruce graduated from Edinburgh and Cambridge Universities with degrees in Mathematical Statistics, is a UK and Indian actuary and a Council Member of the UK actuarial profession.

He has published a highly regarded book on Economic Capital which has been translated into Mandarin and used extensively in the Chinese market. He has carried out computer vision research and is a co-inventor of the popular graph-cut method used in computer vision (https://en.wikipedia.org/wiki/Graph_cuts_in_computer_vision). Bruce has witnessed the emerging power of digital, data and technology through his career.

Tommy Pichet
President
The Society of Actuaries of Thailand
(SOAT)

Tommy Pichet, FSA, FIA, FSAT, FRM is a seasoned qualified actuary with 20 years of experience across Asian insurance, finance and employee benefit valuation and management.

He holds two master's degrees from City University of Hong Kong in Financial Engineering and Business Administration. Received fellowship in actuarial science from USA since 2005 (as FSA) and UK since 2008 (as FIA). He also holds Financial Risk Manager (FRM) designation from USA and passed Chartered Financial Analyst (CFA) level 2.

His key leadership positions and awards in the past are Chairman of Actuarial committee of Thai Life Association Assurance (TLAA), Director of actuarial department in AIA Thailand, Young ASEAN Manager Award (YAMA) in 2012 from ASEAN insurance industry, and National Statistician Award in 2016 from Thai Statistical Association

He currently is President of The Society of Actuaries of Thailand (SOAT), Board director of Thai FinTech Association, Board director of Insurance Premium Rating Bureau in Thai General Insurance Association (TGIA), and Managing Director of consulting firm - Actuarial Business Solutions Co., Ltd

P.K. Senthilkumar
Chief Executive Officer (CEO)
Red Planet Solution (M) Sdn. Bhd

P.K. Senthilkumar, an Indian national, is the Chief Executive Officer (CEO) of Red Planet Solution (M) Sdn. Bhd. In his capacity, he has been instrumental in establishing and leading the company's technical vision of becoming the one-stop solution center for all of client's technical needs in the field of Geographic Information System (GIS). P.K. Senthilkumar holds a Master's Degree in Geomatics from Iowa State University (USA) and has been in the field of GIS for over 20 years. He started his career as a developer at Red Planet US office, then went on to establish the Offshore Development Center in India. PK now holds the position of CEO at Red Planet Malaysia, having worked with over 50 clients worldwide in the capacity of Subject Matter Expert or a System Integrator. His endeavors have taken him from across the continents, solving various problems by capturing, analyzing, manipulate and managing both spatial and attribute data to generate solutions that enable GIS to be an effective problem-solving tool.

Speaker Profiles

Joint
Regional
Seminar 2018

James Lin
Senior Manager
EY

James Lin is a Senior Manager in EY's Asia-Pacific Insurance Advisory Services Group. He has led multiple projects in strategy development, business analytics, investment analytics, risk and capital management with banks and insurance companies in Australia and Asia.

Dustin Ball
Partner
EY

Dustin Ball is a partner and the EY Asia-Pacific Insurance Transactions Leader for Transaction Advisory Services bringing a full range of services to insurance clients of EY firms in Asia. He brings years of experience in strategy development, M&A, market entry, distribution channel transformation, partnerships, joint ventures and portfolio optimization.

Based in Hong Kong, Dustin has been living and working in Asia since 2004. Prior to joining EY, Dustin was the CEO of BIDV MetLife, a joint venture between MetLife and BIDV in Vietnam. He led the formation of the joint venture, licensing and start-up of the company, and then served as CEO until 2016. Before working at BIDV MetLife, Dustin was the Asia-Pacific head of strategic development for several leading multinational insurers, where he was responsible for overseeing mergers and acquisitions in Asia, as well as developing new market-entry strategies.

Dustin holds a Bachelor of Science in Chemical Engineering from the New Jersey Institute of Technology and an MBA in Finance and International Business from New York University's Leonard N. Stern School of Business.

Chihong An
Equity Principal
Milliman

Chihong An is an equity principal of Milliman and a managing director of the Seoul office. He has over 25 years of experience in North America and Asia and has been leading all of the IPOs as well as most of major M&A assignments of South Korean life insurance companies in the past 20 years.

Recently, Chihong is focusing on integrating new technology to actuarial operations, which led him to kick off the development of Booster-FMS, a new actuarial software based on a modern GPU/CPU parallel computing technology. With his vision, Booster-FMS is bringing new technologies and innovative approaches to the Korean insurance industry, allowing insurers to realize new levels of computing power and optimization in preparing for IFRS 17.

Speaker Profiles

Joint
Regional
Seminar 2018

Joseph Kim
Consulting Actuary
Milliman

Joseph Kim is a consulting actuary with Milliman's Seoul office. He moved from Canada to join the office in 2013. Since then, his main responsibility has been to support clients in adopting advanced actuarial techniques and regulatory framework in their pricing and valuation processes with the recent focus on IFRS 17 system implementations. He is also the product manager of Booster-FMS and has been leading the entire development. Joseph has very diversified experience, covering most of actuarial operations from a direct insurer, reinsurer and consulting firm in Canada, the United States and Korea.

Joseph is a fellow of the Society of Actuaries, the Canadian Institute of Actuaries and Institute of Actuaries of Korea. He is also a Chartered Enterprise Risk Analyst (CERA) and a CFA charterholder. He graduated with the highest honors in mathematics from the University of Waterloo in Canada.

Bryce Shepherd
Actuary
SCOR Global Life

Bryce Shepherd is an Actuary with SCOR Global Life and currently heads up the Regional Partnerships team within Asia. Bryce recently moved to Hong Kong from the UK where he was in Business Development and Client Management for SCOR across the UK and Ireland markets. Previous to that he worked in Traditional Protection pricing and also Wealth Management for a well-known Australian Bank. Although he has moved from the UK, Bryce is an Australian citizen, and enjoys visiting new places and meeting new people. One of the most rewarding parts our industry at present is transforming what insurance means to people and creating innovative, engaging and relevant solutions for Insurance companies and customers alike.

Mei-Chee Shum
North Asia Leader, Insurance
Consulting and Technology
Willis Towers Watson

Mei-Chee Shum started her career in the UK, where she was an actuarial consultant at Tillinghast – Towers Perrin (now forming part of Willis Towers Watson). Mei-Chee relocated to Asia in 2003 and since then has held a number of senior positions across the region, including Chief Actuary for AIA Thailand, Chief Financial Officer for AIA Indonesia, Chief Marketing Officer for AIA Philippines, Group Head of Product Strategy for AIA Group, Chief Financial Officer for Manulife Taiwan, and Chief Executive Officer for Manulife Taiwan.

Mei-Chee has hands-on and extensive experience in financial management, capital management, strategic planning, product and proposition development, and risk management. Her roles and responsibilities have included leading large finance functions with complex structures and reporting requirements; management of capital requirements and profit emergence during times of market volatilities and different phases of company growth, development and transformation of product portfolios, and numerous merger and acquisition projects.

Mei-Chee has a PhD in mathematics from Macquarie University in Australia and is a Fellow of the Faculty of Actuaries.
